WE FOCUS ON ENVIRONMENT AND CLIMATE

Every NEIF loan reduces carbon emissions and energy costs. 71% of NEIF’s loans have been for efficient heating, cooling and related improvements and 29% have been for roofing, insulation and other energy and resilience measures. A typical financed residential project reduces energy use by 5-10% and commercial energy use by 15% or more. NEIF has completed over 10,000 residential and commercial projects.

WE MAKE ENERGY AND RESILIENCE IMPROVEMENTS AFFORDABLE

NEIF serves all income levels including low-moderate income borrowers, where access to affordable energy improvements is vital. Low and moderate-income households account for 47% of all loans.
