

0% Customer Financing for Your Business

Limited time offer—energy project financing can help your business save even more money starting on day one.

Benefits

You made the smart choice—deciding to save money and upgrade your facility using the O&R **Business Direct Install Pathway**. This decision will help your business lower its energy usage and monthly costs.

Through a partnership with the National Energy Improvement Fund, you may qualify for a **no-interest, one-year** payment plan for projects upwards of \$25,000 (minimum loan of \$2,000).

Saving Money is Easy

Why use financing? Money saved on your monthly energy bills often meets or exceeds the monthly finance payment—this positive cash flow means money in your pocket starting on day one.

Is it expensive? No! NEIF offers 0%, same-as-cash financing.

What upgrades qualify? Discover our robust measure and incentive list at oru.com/directinstall

How do I get started? Tell your participating contractor that you'd like to review a finance estimate.

No need to wait! We act fast! Receive credit approval typically within two (2) business days.
