From NEIF a B Corporation™, certified to meet the highest standards of compliance & fair lending and a U.S. Department of Energy Home Improvement Expert.

## Three Simple Steps

- 1 Choose the payment that fits your budget.
- 2 Apply to NEIF for an instant credit decision through your contractor's application link. Your contractor will work with you to complete and submit the required program rebate form.
- 3 Sign electronic loan documents from NEIF. NEIF pays your contractor when the work is completed to your satisfaction and your program rebate has been approved and processed.

An approved rebate for qualifying equipment is required to access 0.00% financing. Please note, the maximum 0.00% financing for a project is \$15,000 through one utility program. Customers may not use multiple utility financing programs for multiple improvements and the rebate must be processed only for the improvement through the utility subsidizing the financing for that improvement. NEIF's EnergyPlus financing, which is a non-utility subsidized program, may be used in conjunction with a utility financing program to a total maximum loan amount of \$35,000 – so a customer could finance up to \$15,000 using utility subsidized financing and up to \$20,000 using NEIF EnergyPlus, depending on credit, for the rest of a project.
